

I am very much in favor of Indiana's Telephone Privacy Law. I ask that you DO NOT impose the federal "established business relationship" exemption on Indiana consumers. I wish to keep my name on the list. I feel that as a citizen, I have the right to make the decision on whether to be a part of the privacy law and that decision should be one that each individual is entitled to. Please do not allow companies that I do business with (or anyone else) be able to call my home telephone if I am registered with our Attorney General. Thank you.
